 - Many charity organisation provides a great deal of help.

If you use a plural noun, you must use a plural verb. The verb must 'agree' with the noun:

In my country there are very few cars that use leaded petrol. (plural verb + plural noun)

I like studying during the day but my friend prefers studying at night. (singular noun + singular verb)

We use a plural noun with:

- plural verbs: *are, were, have, do, play*, etc.: *There are a lot of books on the table.*
 - numbers greater than one: *30 cars, 100 students*
 - many*: *It is annoying that so many buses drive past because they are full.*
 - the number of*: *The number of buses on our roads has increased each year.*
- ☆ Note that we use a plural noun but a singular verb after *the number of*.

We use a singular noun with:

- singular verbs: *is, was, has, does, plays*, etc.: *There is only one bedroom in the flat.*
- alan* or *one*: *a car, one student*

☆ Note that some nouns can look plural but are singular (*news, mathematics*) and some nouns have a different form in the plural (*children, men, women, people*).

Some nouns in English are 'uncountable'. This means they do not have a plural form. Some common uncountable nouns are: *advice, advertising, food, furniture, garbage, information, knowledge, money, shopping, time, traffic, travel*.

With uncountable nouns, you must use:

- the singular form: *food, information, money*
- a little / amount of / much / some*: *How much money do you have? The amount of traffic on the roads is increasing each year.*
- a singular verb: *There was already a little furniture in the flat.*

If a noun is uncountable, you cannot use:

- a plural form: *advices, furnitures, garbages, informations, knowledges*
- alan*: *an advice, a garbage, a knowledge*
- a few / many / number of*: *a few shopping, many traffic, the number of knowledge*
- a number: *three travels, four furniture*
- a plural verb: *There were a little furniture in the flat.*

☆ If you want to add a number to an uncountable noun, you can use *a piece of / some / a few pieces of*: *a piece of advice, three pieces of furniture, a few pieces of garbage*

The globalisation has had an enormous impact on many part of the world. Nowadays, even in some of most remote parts of world, we can connect to internet and conduct business. However, they is advantage and disadvantage to this. One disadvantages, for example, is that the local culture and language can be affected. It can also mean that local businesses has to reduce their prices to compete with bigger overseas companies. However, there are advantages; for example, globalisation can bring more business to a small area, which is good for the local economy. It may also help to stop young person moving away from more remote area. If a young person have the chance to run a business and be successful no matter where he or she lives, then perhaps more people will choose to stay in these smaller communities. It also means that news from around the world are available to everyone, and this can also reduce the feeling of isolation.

4 When do I use the present simple tense?

1 Choose the correct sentence in each pair.

- 1 a Nowadays, our bodies becoming 'old' much later than 100 years ago.
b Nowadays, our bodies become 'old' much later than 100 years ago.
- 2 a Children lost their freedom if they have too many responsibilities.
b Children lose their freedom if they have too many responsibilities.

We use the present simple tense:

- to make general statements about our world: *The earth moves around the sun.*
- to show a pattern or general truth: *People work in order to meet their basic needs.*
- with adverbs of frequency: *always, usually, often, sometimes, never. People who are too lazy to walk often use their cars instead.*

<i>I play</i>	<i>I watch</i>
<i>you play</i>	<i>you watch</i>
<i>he/she/it plays</i>	<i>he/she/it watches</i>
<i>we play</i>	<i>we watch</i>

b The government spent ten million dollars on education last year.

10,000,000 = *ten million* (not ~~*ten millions*~~)

The noun that follows is always plural:

There must have been at least three thousand students at the protest.

We use the plural form of large numbers + *of* to give an approximate idea of how many:
There must have been thousands of students at the protest.

We can use *a* instead of *one*. *One* is more formal:

If I won a million dollars, I would probably take a year off and travel around the world.
The president promised to increase the health budget by one million dollars.

☆ We usually use numerals for numbers that cannot be written in one or two words:

You should write fractions in words: *half a (million); alone third of a (million); three quarters of a (million); one and a quarter (million); one and three quarter (million):*

We use *there* to say that something exists. We use *there is* with a singular subject and *there are* with a plural subject:

There is an oak tree in my garden. (not ~~*It is an oak tree*~~ or ~~*There have an oak tree*~~)

There are some great movies on at the cinema. (not ~~*They are some great movies*~~)

We use *there is* and *there are* to give new information. We use *it is* or *they are* to talk about something that has already been referred to. Compare:

- who* to refer to people: *The number of women who were enrolled...*
- what* to refer to the thing that or the things that: *The government should show us what must be done. (= the thing(s) that must be done)*

The relative pronoun can be left out if it refers to the object of a verb, but not if it refers to the subject of a verb. Compare:

The students that I teach all come from overseas countries. *students* is the object of the verb *teach*, so the relative pronoun *that* can be left out: *The students I teach all come from...*

We use *or* to give an alternative:

Would you like some tea or coffee? (= you will choose only one of them)

☆ Note: to join two negative ideas, we use *or* if the subject and the verb are the same:

I don't have tea or coffee. (not: ~~*I don't have tea and coffee.*~~)

After *if* / *whether*, we can use *or not* to suggest the alternative idea:

Do can be used with other question words: *Why do you agree?* (not ~~*Why you agree?*~~)

Be is used with *-ing* verb forms to make the continuous tenses:

I am studying English in Cambridge. (not ~~*I studying English*~~)

(*be* is also used with the past participle to make the passive – see unit 19)

Have is used with the past participle of the verb to make the perfect tenses:

The auxiliary verb must agree with the subject of the verb (see unit 2): *Does your mother drink tea?* (not ~~*Do your mother drink tea?*~~)

Some people believe that too much money is spent on protecting animals and endangered species and that we should spend more money looking after the people on this planet instead. What are your views?

Whether you love animals (1)..... hate them, they play an important role in our ecosystem. Losing even a tiny insect species could have a very large impact on us all. For example, recent studies have shown that when there are fewer insects, there are also fewer birds. This means that crops will suffer because birds play an important role in pollinating plants, (2)..... they also eat insects that are harmful to plants.

Human beings are said to be the most dangerous animal on our planet, (3)..... we are also very vulnerable. If our crops fail, this could have disastrous consequences for all of us. In other words, we are as dependent on the tiny insects of this world as they are on us. They rely on us to protect them (4)..... their environment. If we do not, their numbers could begin to decline, (5)....., even worse, they may become extinct altogether.

It is true that some people are already doing (6)..... they can to protect the environment, (7)..... this is not enough. Nowadays, people always want to buy the newest and latest gadgets, (8)..... what happens to the 'old' mobile phones, computers or toasters (9)..... are thrown away? We all need to realise that our everyday actions can have an impact on whether (10)..... not other animal species survive. We (11)..... need to stop buying new things altogether; however, we do need to change both the way we think (12)..... the way we behave.

Dear Sir

I am writing to complain about a recent holiday I took with your company.

First, our accommodation was terrible. It was very noisy as a result of (1)....., so builders were working on it day and night. Not only that, but we couldn't use the pool because of (2)..... We would have liked to go to the beach more often, but on the first day my son cut his foot badly as a result of (3)..... in the sea there, and we discovered there was a lot of broken glass in the sand.

Secondly, we paid a great deal of money for two trips. The first one to Mt Etna was ruined because of (4)..... In fact we couldn't even see the top of the mountain because of (5)..... The second trip was to a show in the local town. However, we missed the start of the show as a result of (6)..... on the way there. Furthermore, my wife ended up in hospital as a result of (7)..... at the restaurant there.

I would be grateful if you could refund the cost of our trip.

Yours faithfully

Fraser Cullen

How do I make a verb passive?

1 Tick the correct sentence in each pair.

- 1 a My home is located in the western part of the city.
b My home locates in the western part of the city.
- 2 a These funds can be give to the poorer people to help them.
b These funds can be given to the poorer people to help them.

The passive is formed with the verb *to be* + the past participle of the verb:
Nowadays, a great deal of money is spent on advertising.

The verb *to be* should be changed into the correct tense:

Tense	Passive
present simple	<i>is spent</i>
present continuous	<i>is being spent</i>
simple past	<i>was spent</i>
past continuous	<i>was being spent</i>
present perfect	<i>has been spent</i>
past perfect	<i>had been spent</i>

To make the negative, we put *not* between the verb *to be* and the past participle:
We were not told that the rules had changed.

The passive can also be used in the infinitive form:
Children need to be taught the correct way to behave in public.

After modal verbs, we use the passive infinitive without *to*:
Some adults believe that children should be seen and not heard.
You will be paid on the last Friday of each month.

2 Correct the mistake below.

3 Correct the mistakes in the following sentences. You do not need to change the tense.

- 1 The house was sell for over one million dollars.

- 4 The teacher told to take her class out of the school if the fire bell rang.

- 6 The museum was being renovating when we were there, so we could not visit it.

When do I use the passive?

1 Tick the correct sentence in each pair.

- 1 a Many people have been died because of this disease.
b Many people have died because of this disease.
- 2 a This data took from 1982 and 1992.
b This data was taken from 1982 and 1992.

With active verbs we usually use the following order: subject + verb + object. We use the passive when we want to put the object of the verb first: object + verb. Compare:
The teacher told the students to close their books. = active (subject + verb + object)
The students were told to close their books. = passive (object + verb)

We use the passive:

- when we want to make the object the focus of the sentence: *The books were sold for a small profit at the school.* (the focus is on the books, not the person selling them)
- ☆ Note that the verb (*were*) agrees with the object (*the books*).
- when the context tells us who carried out the action: *A law was introduced to help protect people in this situation.* (we know that the government did this)
- when it is not important who carried out the action: *In the factory, the shoes are cleaned and packed into boxes ready for sale.* (we do not need to know who does this)
- ☆ Note that we can include the 'subject' by adding *by* + the person/group: *A lot of waste materials could be recycled by large manufacturers.*

2 Correct the mistake below.

3 Change the following sentences from active to passive. You will not need to change the tense. You will need to decide when to leave out the subject.

- 1 A factory worker checks each box for quality. *Each box*
- 2 The government does not permit children under 16 to work. *Children*
- 3 The washing machine is washing your clothes at the moment. *Your clothes*

What is register?

b This type of work attracts a greater percentage of men than women.
- 2 a Many old people believe that kids have too much freedom nowadays.
b Many old people believe that children have too much freedom nowadays.

'Register' means using the right word in the right context. For formal essay writing, you must use a formal register. This means you should not use informal language. You should not use:

- informal vocabulary: not *kids; ok; bucks; heaps*. You should use a more formal equivalent instead: *children; all right or acceptable; money; many or a great deal*.
- symbols on their own in place of words: not %; \$; &; @. You should write the words in full: *percent; money; and; at*. Note that % and \$ should only be used with numerals. For smaller amounts we write \$50 (not 50 dollars) and 75% (not 75 percent). The noun form of *percent* is *percentage*.
- abbreviations: not *m; yrs; kgs; no*. You should write these words in full: *million; years; kilos/kilograms; number*.
- all capital letters: not *NOWADAYS PEOPLE THINK THAT..* You should use capital letters only when appropriate: *Nowadays people think that..*

Look at the following examples:

Companies waste ~~heaps of bucks~~ on advertising. → waste a great deal of money on...
In 1986 the ~~%~~ rose to 67.5. → the percentage rose to...
Between the ~~yrs~~ 2001 and 2005, over ~~2m~~ people died. → the years... over 2 million...

2 Correct the mistake below.

How to train your new puppy

There are two main types of training: behavioural and obedience. Behavioural training should do on a one-to-one basis. This type of training uses to correct any bad habits your dog may have developed, such as climbing on furniture. Obedience training should do often but only for short periods of time. It is best to train your dog just before meals so his meal associates with a reward for the training.

It is important to keep your puppy safe from danger. Many young puppies injure because their owners don't realise how curious they can be. One way to protect your puppy is by giving him a special house. The house can make of any suitable material but it must be big enough for the puppy to move around comfortably. It can use for house-training your puppy or to protect him from very young children.

You should never try to win your puppy's affection by allowing him to do what he likes. If your puppy rewards with a cuddle and a pat when he jumps on the furniture, then he will continue to do this. To correct jumping, first your puppy's feet should place firmly back on the floor. Then the puppy gives a treat when he is on the floor. It is important to make sure that other people know they cannot pet him or reward him if he jumps up.

The graph shows the no. of people who shop online and the types of stuff that bought. It is clear that most money spend on travel and accommodation, and the smallest amount of money is spending on groceries. The first figures available are for the yr 1995, because shopping online was not common before then. The % of people shopping online was very small initially, and it took ages for people to begin using this service. However, the majority of people still wanna visit shops in person to do their shopping, and only 20% of the population say they have ever bought anything online. 4 Correct the 10 vocabulary mistakes in the following extract.

If we want to reduce unemployment, we need to pay workers more money for manual jobs. This will encourage people to work. To what extent do you agree or disagree?

In some countries, employed people are given money by the government to help them until they can find a suitable job. However, manual workers often receive salaries that are too low to live on; this means that there is little incentive for these people to work. One way to prevent the problem of unemployment would be for employees to pay their employers more money for jobs which do not require a great deal of knowledge, such as cleaning jobs.

Paying more wages is only one way to encourage people to work, however. We also need to consider the working place. We need to ensure that it is safe and comfortable at all times, so that people can feel happy about going to work.

If we want to resolve unemployment from increasing, then we need to do what we can to encourage people to continue working. This situation will not be solved unless we deal with the issue of working conditions as well as money.

These contractions are mostly used in spoken or informal language: *I can't find Peter anywhere – he isn't in the staffroom or in his office.*
- after people or animals to show possession: *Mary's hat, the cat's food dish*

We do not use an apostrophe

- with possessive pronouns, such as *its, ours, theirs, yours*:
The caterpillar stays in its cocoon until metamorphosis is complete. (not ~~it's cocoon~~)
- when we add *s* to a singular noun to make it plural, even if we are using a commonly abbreviated word: *CDs, TVs* (not: ~~CD's, TV's~~)

4 Correct the 12 vocabulary and spelling mistakes in the following text.

'There is far too much advertising on TV these days.' Do you agree?

Nowdays, if you watch a programme on a commercial TV station, you should expect to watch a large number of advertising to. It seems that television advertise is the price we pay for free-to-air TV. But is this price higher than we realise? Not only are constant advertisings annoying, but they also mean that youths are being constantly told to buy things they dont need or eat things that aren't healthy. It often seems as through children are being specifically targeted by the commercial industry because they make there commercials very colorful and loud, and so even very young children are attracted to them. I think it is important to realise that TV's are a very effective teaching tool and we should therefore take more care with how this medium is used.
